MEMORANDUM FOR: Acting Deputy Director (Administration)

SUBJECT: Survey of the Psychiatric, Testing and Assessment-Programs.

1. Herewith is the report of the survey made by this Office on the above subject.

2. You will note that the Chief of the Assessment and Evaluation Staff has concurred for the Director of Training and the Director of Personnel has concurred with certain comments of his Chief of Testing attached thereto. To these comments, he adds his own remarks that the matter should be further studied in six months with [REDACTED] remarks given appropriate consideration.

3. The Medical Office returned the report with a note indicating that Dr. Tietjen considered his concurrence to be pointless.

4. You will recall that we delayed in pushing this survey and report in deference to the request of the Inspector General's Office. We now understand that the Inspector General has rendered a separate report, probably to the Director, and it is possible you may have seen it. As far as our report is concerned, [REDACTED] stated 25X1A9a verbally that his report made the same recommendation that we have arrived at, namely, that there be a followup of the survey after six months in order that the functions of the Assessment and Evaluation Staff may be more fully developed under its new chief. [REDACTED] in making this statement has reflected exactly the statement Mr. Lyman Kirkpatrick made to me personally.

5. In accordance with the above remarks, we have therefore made due note in our records to take up with you the question of making another survey in the early part of May.

25X1A9a

[REDACTED]
Management Officer

4 Attach.
